

SONANCE

FIRMWARE RELEASE NOTES

PowerZone® Connect PRO - 2026.18.1 - June 2026

New Features:

Initial PowerZone Connect PRO firmware release

- Initial firmware release for Sonance PowerZone Connect PRO amplifiers, based on the PowerZone Connect 2026.18.1 firmware platform.

Sonance branding

- Added dedicated firmware branding for Sonance PowerZone Connect PRO products.

Default Hi-Z 70V configuration

- PowerZone Connect PRO amplifiers default to Hi-Z 70V output mode with the high-pass filter frequency set to 20 Hz.

Compatibility:

PowerZone platform compatibility

- PowerZone Control Center supports both PowerZone Connect and PowerZone Connect PRO amplifiers.
- Compatible wall controllers and speaker presets can be used across supported PowerZone products.
