PowerZone® Connect PRO

PROFESSIONAL ZONE PROCESSING AMPLIFIERS

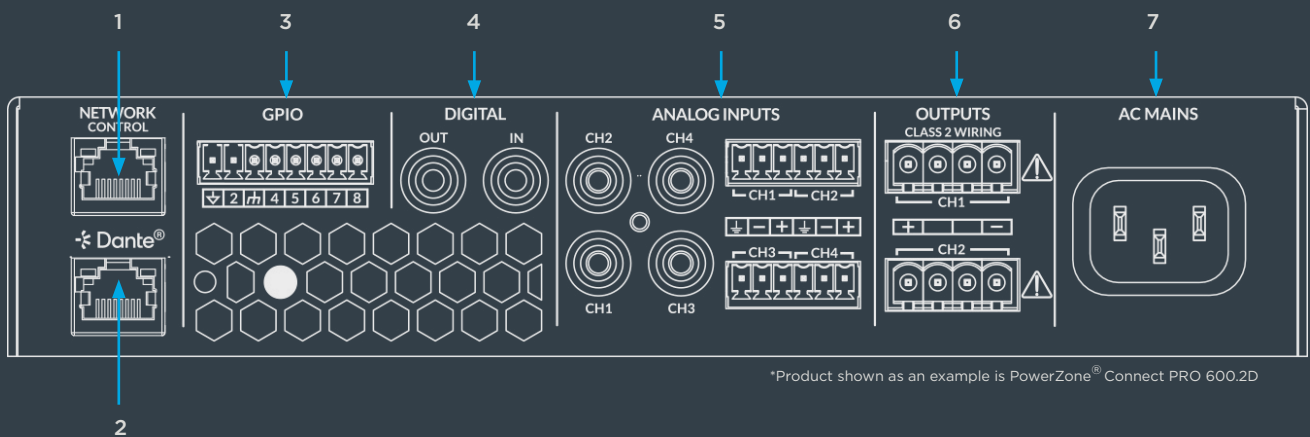

About the PowerZone® Connect PRO

The PowerZone Connect PRO series is a family of Hi-Z/Lo-Z direct-drive amplifiers designed for seamless integration into professional AV environments. Built around an advanced DSP architecture with comprehensive zoning functions, these amplifiers deliver precise signal management, scalable configuration, and outstanding reliability across distributed audio systems — eliminating the need for external processors.

Every model is available in a standard and Dante variant, ensuring the PRO family fits analog and fully networked commercial installs alike. Zoning control is supported through compatible Wall-M controllers or third-party integration via an open API.

FEATURES & BENEFITS

- Hi-Z/Lo-Z direct drive on all outputs — optimized for 70V/100V
- Advanced zone processing with independent source selection, level control, dynamics, priority override, and microphone ducking per zone
- Full-matrix DSP configuration via PowerZone™ Control web app
- Audinate Dante™ AoIP on all D-suffix models (Ultimo chip, 4x4)
- Every model available in standard and Dante variant — 12 models total
- S/PDIF input/output
- Built-in Wi-Fi and PowerZone Control web app — accessible from any device via wireless access point or wired RJ45
- Wall-M controller compatibility and open API for third-party integration
- Flexible power sharing across output channels
- Configurable GPIO
- UREC™ universal power supply with PFC — ErP and Energy Star compliant
- Five-year warranty on every unit

1. Network Control
2. Dante® (optional)
3. Configurable GPIO
4. Configurable S/PDIF Audio I/O

5. Audio Inputs:
 - Balanced: Euroblock
 - Unbalanced: RCA Phono
6. Configurable Speaker Outputs
7. Power Input

1U MODELS

300.2 / 300.2D	600.2 / 600.2D
2 x 150W @ 70/100V	2 x 300W @ 70/100V

600.4 / 600.4D	1200.4 / 1200.4D
4 x 150W @ 70/100V	4 x 300W @ 70/100V

2U MODELS

2000.2 / 2000.2D	4000.4 / 4000.4D
2 x 1000W @ 70/100V	4 x 1000W @ 70/100V
